This application is presented to the Muirfield Design Control Committee (MDCC) to request approval for proposed changes to my home. I understand that the Committee meets regularly, that they may take up to 30 days to respond to this request and will respond sooner, if possible. To expedite the process, please find enclosed 2 copies of this application, all relevant details and the design review fee. One copy of this application will be kept on file at the Association office and the other will be returned to me. I understand that approval is granted on a case-by-case basis. Pertinent parts of this application include:

Nearly all sports nets fall into the category of intermittently used recreation equipment, requiring that they be stored inside or on a patio or deck when not being used. There are few instances where an owner may request approval for an oversized, permanently-placed sport net. Since a small variety of larger sports nets, like lacrosse goals and soccer nets are difficult to move in and out with use, the Design Control Committee has chosen to consider allowing a permanent outside location for them with specific screening and location requirements. An application must be submitted for the MDCC's review and approval prior to placing the equipment on the property. Please use the diagram below as an example of what to submit to the committee for review.
