December 2009

Volume 64

Over 20,000 twinkling, white lights have been strung along the bridge, gazebo and evergreen trees around the Holbrook Recreation Complex to brighten the season and offer a warm holiday welcome to our residents and community visitors.

The south entry at Brand Road is also alight with the holiday spirit. The stone columns have been adorned with festive wreaths and red bows. The trees are strung with over 1,500 lights. Both settings are a perfect destination for a wintry stroll or for taking holiday pictures. We hope you enjoy them.

Merry Christmas!
